

## ABOUT THE ARTWORK

### ***My INK-credible Adventure***

by Yeo Shih Yun

Shih Yun modifies normal objects found around her to make 'one-of-a-kind' brushes.

A visit to her studio will bring pleasant surprises as you discover objects like twigs, a feather duster and even a mop which she uses to create abstract ink paintings.

## MATERIALS

1. Mahjong paper or any large paper
2. 2 adult chairs
3. String or twine
4. Paintbrushes
5. Paint (3-4 colours)

### **OPTIONAL:**

Items you can find in your homes which can be used as tools to paint

## CREATE

### ***Pendulum Painting***

1. Tape the mahjong paper to the floor and set 1 adult chair on opposite sides of the paper.
2. Tie a string high above the paper connecting the 2 chairs.
3. Tie one or two paintbrushes to the string such that the paintbrushes are dangling above the paper. Ensure the paintbrushes touch the paper slightly when hung vertically.
4. Dip the paintbrushes into the paint and let the paintbrush swing back and forth above the mahjong paper.
5. Try using different items to replace the paintbrush to see what other strokes you might get!

## EXPLORE

What happens when you use heavier items as brushes? Do they create longer and thicker strokes?

Try releasing the 'brushes' at different heights, what kinds of brushstrokes will you get?
